500

Multi-Fuel & Wood Stoves

Dovre 500CB woodburner with lattice door

The Dovre 500 is a masterpiece of casting proficiency and up-to-date technology. Not only does it offer classic stove appeal but it also features a separate ashpan door, for easier removal of ash, and a choice of four different versions. The multi-fuel model is available with either a fixed grate or a riddling grate. The woodburner, on the other hand, incorporates a special cleanburn system that is so effective it has been approved by the Department of the Environment for use in smoke control areas, and has the added option of a lattice door.
