The Dovre 250 multi-fuel is designed to suit a huge range of applications from a cottage kitchen to a modern town-house living room, especially as it is approved for smoke control areas. It has a large glass door panel and ornately cast side panels both adding to the visual appeal. Manufactured from only premium grade cast iron, the 250 is at home whether burning wood (logs up to 30cm long may be used) or a variety of solid fuels, and is equipped with a sophisticated airwash system to keep the door glass cleaner. Matt black woodburning and woodburning/smokeless fuel versions with cleanburn for improved heating efficiency are also available. Shorter legs are an option on the 250CBW model.

- All cast iron construction
- Woodburning or multi-fuel versions
- Airwash system
