

# RIVA PLUS | MIDI

If you have a little more space available then the Riva Plus Midi will provide you with the extra heating capacity to make slightly larger rooms cosy throughout the winter.

## KEY FEATURES

- Woodburning and multi-fuel versions
- High efficiency (wood: 71%; smokeless fuel: 72%)
- Approved for Smoke Control Areas\*
- Single combustion control lever optimises air supply for fuel type
- Boost setting for lighting and re-fuelling
- Stainless steel baffle
- Radiant heat and convected heat
- Heat output 3.0 - 6.5kW
- Maximum log length: 300mm (12")
- Cast iron log tray with air feed (woodburning model)
- Innovative design with external riddling (multi-fuel model)
- Removable window crosses for 'clear door' option
- Optional fan-assisted convection system
- Optional external air kit
- Top or rear flue connection: internal Ø 128mm (5")

\* When fitted with a Smoke Control Kit and used in accordance with the user instructions.

Riva Plus Midi Multi-fuel burning logs with high canopy

PRODUCT CODES	Woodburner	Multi-fuel
Riva Plus MIDI	RVP-MDW	RVP-MDM
Options:		
External air kit	RVP0002	RVP0002
Fan-assisted convection kit	RVP0006	RVP0006
Smoke Control Kit	-	RVP-MEMSCKIT
Low Canopy	RVP-MDLC	RVP-MDLC
High Canopy	RVP-MDHC	RVP-MDHC

# KEY DESIGN FEATURES

Stovax Riva stoves all feature the latest cleanburn combustion systems, allowing them to burn logs or solid fuels with outstanding efficiency, resulting in more heat delivery into the room and less going up the chimney. This technological advancement is achieved by introducing pre-heated, secondary air into the firebox to burn the excess hydrocarbons in the smoke. Airwash air flow also helps keep the window clean, allowing you to enjoy the flames to the full.

As shown below, Riva Plus and Riva Vision both have slightly different design features to suit their construction characteristics:

## RIVA | PLUS

- 1** Heavy duty steel body
- 2** Airtight cast iron door
- 3** Stainless steel baffle
- 4** Heated air jets from cleanburn ports burn hydrocarbons in smoke
- 5** Single lever for state-of-the-art control of cleanburn combustion and airwash system
- 6** Firebrick lining
- 7** Top or rear flue exit connecting stove to flue pipe
- 8** Removable tool to operate door handle
- 9** Removable 'window crosses' for clear window
- 10** Optional fan-assisted convection circulation system
- 11** Optional external air facility for draught reduction
- 12** Optional Smoke Control Kit (not illustrated)
- 13** Low and high canopy options (not illustrated)

\* Excluding Riva Plus Large

## RIVA | VISION

- 1** Heavy duty steel body
- 2** Airtight contemporary glass door
- 3** Stainless steel baffle
- 4** Heated air jets from cleanburn ports burn hydrocarbons in smoke
- 5** Single lever for state-of-the-art control of cleanburn combustion and airwash system
- 6** Firebrick lining
- 7** Top or rear flue exit connecting stove to flue pipe
- 8** Optional ceramic glass top plate
- 9** Optional external air facility for draught reduction
- 10** Stainless steel controls and log guard
- 11** Optional Smoke Control Kit (not illustrated)
