

This multi-fuel version of the low canopy, single door Stockton 8 is fitted with the optional multi-fuel kit. The stove is shown here in Matt Black burning smokeless fuel.

# STEEL

## Stockton 8

Little wonder the Stockton 8 is one of our best selling stoves, it offers you more choices and options than any other model. In particular, there is also a space-saving Slimline version (see page 51). This is 3" (75mm) less in depth and, in many cases, means building work will not be required to deepen a fireplace opening. Although shallower, it will still take logs up to 15<sup>3/4</sup>" (400mm) long. The Stockton 8 is produced with a choice of single or double doors. The two door model is opened and closed with a handy cast iron tool (not shown) which locates over the keystone catch, and then rotates to open or close the doors. To complete its versatility, there is also an integral boiler version of the Stockton 8 which produces up to 34,000 BTUs of hot water (see pages 66 - 69).

# Steel stoves

Wood and multi-fuel

Using cast iron for the airtight doors and main firebox components and heavy gauge steel for the body, the Stovax Stockton and View stove ranges combine the advantages of both steel and cast iron to produce exceptional performance, control over combustion and value for money.

## Stockton Stoves

With eight sizes, each available in four colours, and some models having a further choice of door styles and canopies, there is a Stockton stove to suit any home. Furthermore, there are inset versions, double sided versions and even boiler versions, so whether traditional or modern, large or small, in country or town, burning wood or solid fuel you should find a Stockton to match your setting.

## View Stoves

The View stoves are the latest additions to the Stovax ranges. Available in a choice of three freestanding sizes and an Inset version, the View offers high efficiency heating in ultimate style - perfect for more contemporary homes! You can even achieve whole house heating if you opt for View 7 Inset or View 8 High Output boiler versions, with the capability of supplying up to nine radiators as well as providing a cosy warmth to the room in which they are situated.

## Stunning flame effects due to Cleanburn technology

The triple air systems incorporated in Stockton and View stoves combine to provide superb flame control and exceptional views of the fire, so you can also create different ambiances to suit your mood. From a deep glow, with minimal flames, it takes only a few seconds to fill the firebox with swirling flames.

## Design Features

- 1 5mm heavy duty steel body.
- 2 Cast iron airtight door with primary air control lever.
- 3 Cast iron fireback incorporating heat exchanger for Cleanburn system.
- 4 Heated air jets from Cleanburn ports burn hydrocarbons in smoke.
- 5 Airwash control lever to maintain a cleaner glass window.
- 6 Riddling (multi-fuel versions).
- 7 Top or rear flue exit connecting to stove flue pipe.
- 8 Firebrick lining.
- 9 Specially developed, inset boiler versions of Stockton and View also available (not illustrated).
- 10 Universal tool (not illustrated).  
This fits over the stove handle to provide additional leverage and easier usage when the handle is hot.
- 11 Cleanburn air control ports (not illustrated).  
These are on the rear of the stove and pre-set in the factory.
- 12 Optional smoke control kit (not illustrated) available on most models to allow them to be used in smoke control areas.
